## Isolated Base Power HEX-pak™ Assembly - Half Bridge Configuration

- High Current Capability.
- UL recognised E78996.
- Electrically Isolated Base Plate.
- Easy Assembly into Equipment.

### Description

The HEX-pak™ utilises the well-proven HEXFET™ die, combining low on-state resistance with high transconductance. These superior technology die are assembled by state of the art techniques into the TO-240 package, featuring 2.5kV rms isolation and solid M5 screw connections. The small footprint means the package is highly suited to power applications where space is a premium. Available in two versions, IRFK.D... for fast switching and IRFK.F... for oscillation sensitive applications.

$$V_{DS} = 200V$$

$$R_{DS(on)} = 43m\Omega$$

$$I_D = 54A$$

### Absolute Maximum Rating

|                         | Parameter                                 | Max.       | Units |
|-------------------------|-------------------------------------------|------------|-------|
| $I_D @ T_C=25^\circ C$  | Continuous Drain Current                  | 54         | A     |
| $I_D @ T_C=100^\circ C$ | Continuous Drain Current                  | 34         | A     |
| $I_{DM}$                | Pulse Drain Current                       | 216        | A ①   |
| $P_D @ T_C=25^\circ C$  | Maximum Power Dissipation                 | 500        | W     |
| $V_{GS}$                | Gate-to-Source Voltage                    | 20         | V     |
| $V_{INS}$               | R.M.S. Isolation Voltage, circuit to base | 2.5        | kV    |
| $T_J$                   | Operating Junction Temperature Range      | -40 to 150 | °C    |
| $T_{STG}$               | Storage Temperature Range                 | -40 to 150 | °C    |

### Thermal and Mechanical Specifications

|            | Parameter                              | Min. | Typ. | Max. | Units |

#### Notes:

① - Repetitive Rating: Pulse width limited by maximum junction temperature see figure 8.

② - Per Module.

③ - A mounting compound is recommended and the torque should be rechecked after a period of three hours to allow for the spread of the compound.

## Part Numbering

1. - HEX-pak Module.
2. - Number of arms of bridge.
3. - D - Fast switching.  
- F - Oscillation resistant for sensitive applications.
4. - Voltage code:-  
054 - 60V  
150 - 100V  
250 - 200V  
350 - 400V  
450 - 500V  
C50 - 600V
